Platter Ring

General.

Micro-Seiki.nl has two Platter Rings in his program.

Platter Ring No.1

This Platter Ring is a reproduction of the original Micro Seiki Platter Ring. Dimensions and weight are the same but not the material. We uses Brass.

For use with Micro Seiki TT models:

SZ-1T	SX-777 Air
SX-8000 MK II	BL-999S
SX-5000 MK II	BL-999
SX-8000	BL-111L
SX-5000 Air	BL-111
RX-5000	BL-101LG
RX-3000	BL-101L
RX-1500G with separate motor	BL-101G
SX-1500G with separate motor	BL-101A

Platter Ring No.2

This Platter Ring is based on and looks like Platter Ring No.1.

I decided to make this version for RX-1500 owners who will not or cannot buy the expensive upgrades like a Gunmetal Platter and Platter Ring No.1. Those owners should have a chance to upgrade their beautiful RX-1500 to a much higher level to. This Platter Ring will do this job very well!!

Platter Ring No.2 is made of Stainless Steel and weighs 2,95 kg's.

IMPORTANT: It can only be used on **The RX-1500 with separated motor and the standard aluminum Platter!**

Despite a packing-control, I would ask you first if the Platter Ring is undamaged. If this is not the case contact me immediately at info@micro-seiki.nl

Remarks / Advises:

- As the original Platter Ring No.1 is not polished. Our own developed Platter Ring No.2 is therefore also not polished. If you want a polished Platter Ring than this must be done by a professional.
- For dry maintenance use only an abrasive cloth and for a wet maintenance use a barn free damp cloth. (use no cleaning products) Special polish wipes can be used to. (Please get some advice from a professional first)
- The Platter Rings will fit the turntable platter very tight. It is possible that after receiving the Platter Ring will not fit the first time because of temperature differences. I advise to wait one day so the material will have the right dimension.
- The Platter Rings are heavy and machined very carefully to be perfectly straight. So exceptional forces can change the shape of this Platter Ring. (falling and colliding)
- If you don't want to use it for a while You must store it **flat**. No standing up on its side.

Platter Ring

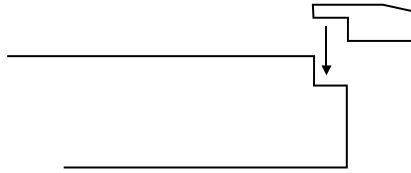

Contents of the packaging.

- 1 Manual,
- 1 Platter Ring.

Instructions.

- Care for a barn free workspace,
- To place the Platter ring on the turntable platter you must move the Platter Ring in a **straight vertical line** down till it rests on the rim/edge of the turntable platter.

Placing the Platter Ring in a straight vertical line down!
